Ancient Wisdom, Modern Tranquility

**Award-winning music and poetry CD inspires
self-reflection and personal growth using the 22 major
tarot cards as stepping stones.**

Technology's frenetic pace and the modern mind's unrest detract us from inward reflection and illumination. How, then, to shut out the noise and focus on the soul?

In her audio CD, **A Soul Walk: Tarot an Expression of Your Soul**, writer and narrator Twainhart Hill introduces a fresh path to peace using music, poetry, and the 22 major tarot cards.

The wisdom of tarot taps deep into the human psyche and is a powerful tool that helps reflect on one's emotions as well as uncover hidden thoughts. Hill's CD, however, only uses the tarot as a learning crucible to ignite the imagination, not to teach the ancient art of reading the cards.

Each of the 22 major tarot cards is on a separate track and allows examination and reflection on feelings, thoughts, habits, desires, attitudes and beliefs about each of the processes the card represents.

Excellent for meditation, relaxation, study or just thought-provoking listening, **A Soul Walk** requires no prior tarot experience but students, teachers and readers of the cards will find it an enhancement to their study and work.

Praise for *A Soul Walk*,

**a 2007 *Independent Publisher* magazine IPPY winner,
bronze, *New Age: Mind/Body/Spirit* Category**

"I was never quite sure what to expect until I listened. I truly love how you do not give advice, but encourage people to look and give possible direction on how to look...we need to put thoughts and concepts out there and let folks develop them with their own skills and experiences..."

- Don Johnson, Student Affairs, Oregon State University

"...a way of using tarot as a springboard to self-improvement and to understanding, it is beautifully done.

What you draw from the cards makes a statement opening the door to each one."

- Kathleen Ramos, artist

About the Author:

Twainhart Hill has over 30 years of experience giving tarot consultations. Studying these symbols has been a passion for her and has lead her into many journeys.

Twainhart has a degree in art and enjoys photography, writing poetry, doing research, and making the most of each day.
